

CURIOSITY

MARS SCIENCE LABORATORY

**MSL/Curiosity—It's All About Learning
A Big Question**

We've followed the water on Mars and found it. Now we're following our curiosity in search of the answer to a really big question. Are their places (habitats) that could have supported—or still support—life on Mars?

It's a big question requiring a bold rover.

Landing: Aug 6, 2012, 1:30 a.m. EDT
